EVMS Instructional Design and Technology Training

Get to Know Your Organization

This organization is available to all EVMS employees and serves as a resource for many technical and pedagogical issues. You may come and go as you please to this organization. You may download resources or take on-demand training as many times as necessary, returning to portions you know to be helpful.

- Resources are organized by topic in the **Training Content** left link.
- Each topic includes an on-demand training module, additional content that highlight features, and resources for further exploration.
- With in each topic is the link to the EVMS Online Service Request form if you would like to discuss ideas with our designers and technologists.

Organization Purpose

This organization serves as the training hub for the institutionally supported learning technologies at EVMS. The training content delivered in this organization will allow faculty and staff to effectively utilize the technologies offered at EVMS and leverage the features for their courses. The topics covered in the organization will benefit all users no matter their course modality. It is our hope that faculty and staff will gain new insights into the features of the supported educational technology so that they can then make their course that much more engaging and interactive for their students.

The list of technologies offered in this organization will constantly be updated and revised as the technology landscape evolves. Announcements for new and updated technology topics will be sent to all participants in this organization.

The list of technologies offered in this organization will constantly be updated and revised as the technology landscape evolves. Announcements for new and updated technology topics will be sent to all participants in this organization.

Organization Guidelines

Below are some general guidelines and procedure on how this organization works:

- The **Training Content** tab on the left menu holds all of the topics for each of the supported learning technologies.
- Each topic includes an on-demand training module that is delivered in Articulate RISE.
- RISE modules will overview each technology and will conclude with a quiz to confirm completion.
- Each topic also includes additional resources and documents, links to additional support, and a way to connect with IDT.
- Participants can return to each topic at anytime to retrieve resources or view modules again.

Panopto

Panopto Video Platform

Overview

Panopto is a secure, mobile-ready video platform that offers video content management, video recording, and robust accessibility options all integrated within Blackboard. Faculty can record lectures, upload recorded media, and manage their content library. Students can easily view lectures and can utilize Panopto for recorded assignments.

Panopto works best with Chrome or Firefox browsers.

Objectives

In this module participants will:

- Understand the overview and layout of the Panopto recorder
- Utilize the process for enabling Panopto in your own Blackboard course
- Apply the workflow for creating and editing recorded sessions
- Understand the sharing options for Panopto within Blackboard

On-Demand Training

Panopto Training Module

Resources and Documents

Need a quick link to a particular feature of Panopto? Use the links below for detailed information.

- [Navigate the Video Library](#)
- [Upload Video Files](#)
- [Trim a Video](#)
- [How to Embed Video in a Blackboard Course](#)

Below are EVMS documents that overview specific processes within Panopto.

- [Add Panopto to a Blackboard Course](#)
- [Record with Panopto](#)
- [Export a PowerPoint as MP4, Upload to Panopto](#)

Explore More

Want to learn more? Looking for engaging ways to implement the technology? Take a look at the resources below.

- [Panopto Support site](#) - Browse additional documentation and explore user forums
- [Panopto Webinars](#) - Register for a live webinar or watch an on-demand recording
